Management Acceleration Programme

Gain a competitive advantage in today's talent-driven economy

Overview

To gain a competitive advantage in today's talent-driven economy, organisations must build a sustainable talent pipeline. Organizations need to develop early-career high potential talent into tomorrow's leaders. The future success of today's organisation depends on the organisation's ability to prepare promising professionals to handle challenges associated with navigating the increasingly complex organisational and market terrain. The design of the Management Acceleration Programme

draws from Lagos Business School's experience in creating transformational learning experiences for high potential managers over the last three decades, as well as practical insights from experienced talent managers. It is designed to enhance emerging leaders' performance readiness, fast-track their careers and accelerate their impact on the organisation. On successful completion of this programme, participants are admitted into the prestigious Lagos Business School Alumni Association.

Objective of the Programme

To prepare the emergent leader for the rudiments of leadership. This programme will help the participants to understand the internal and external business environment. Participants will have the unique benefit of gaining new business perspectives through interaction

with a multi-disciplinary faculty who have real-life experience at senior levels in multinational organisations. It considers that the participants in this class will return for the Senior Management Programme at Lagos Business School after two or three years.

Key Learning Outcomes

At the end of the programme, participants should be able to :

- Become competent and confident managers equipped to deal with business challenges
- Develop clear aims and plans for ongoing personal and professional development
- Build their self-awareness through personalised coaching intervention.

Target Audience

- Participants should have at least 3 – 5 years experience in roles of increasing responsibility.
- Individuals identified as possible future leaders
- Technical experts transitioning to management roles
- High performing individuals being prepared for demanding developmental assignments
- New managers taking on leadership responsibilities for the first time.
- High performing emergent leaders identified as having the potential to influence their organisation's future success
- Highly motivated young professionals on management associate, graduate trainee, and other early career development programmes.

Programme Structure and Curriculum

The programme rests on the bedrocks of Self-leadership, Teamwork, Emergent Team Leadership and Intrapreneurship. Our integrated curriculum has been restructured to be delivered through three modules each with themes representing the courses within it.

MODULE 1: THE BIG PICTURE

- Introduction to Strategy: The big picture
- Understanding the Economy
- Digital Business Transformation
- Business and Management Ethics
- Understanding Change
