

WORKFORCE GENDER EQUALITY ACCELERATED COURSE

VIRTUAL AND IN-PERSON PROGRAMMES
2022

Delivered by Lagos Business School

Join organisations from West Africa in this leadership programme that develops the skills and tools needed to increase gender equality, diversity, and inclusion in the workplace.

Increasing gender equality in the workplace has become a priority for organizations around the world, and research shows gender diversity is correlated with improved company performance. Today, most organizations are working to recruit and retain more women in order to improve productivity, build resilience, and improve brand and reputation. Increasing gender equality in the workplace requires the commitment of both organizations and individuals. Organizations must address the structural barriers that inhibit gender equality, while individuals must acquire the knowledge, tools, and behaviors known to promote workplace gender inclusion.

The **Workforce Gender Equality Accelerated Course** is a six to twelve month programme that includes organizational gender equality assessments, self-assessments, a virtual or in-person course, and five to twelve months of change management coaching. The programme prepares managers to become agents of change within their organizations by developing the skills needed to:

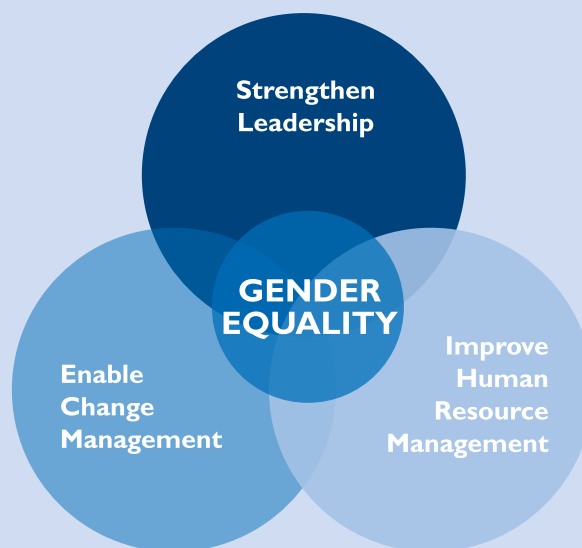

Identify gender equality gaps within their organization.

Develop a business case that demonstrates how gender equality will benefit the organization's bottom-line.

Take targeted, tangible, and strategic action, grounded in assessment, to increase gender equality in their organization.

Strengthen leadership and change management skills and exercise more influence to create an equitable and diverse workplace.

Effectively engage other male and female leaders within their organization in support of desired change.

The Accelerated Course curriculum draws from USAID's toolkit, *Delivering Gender Equality: A Best Practices Framework for Male-Dominated Industries*, which demonstrates methods for introducing gender equality initiatives at each phase of the employee lifecycle. Intended to be a catalyst for change, this programme provides a holistic practical learning environment that ensures success for participating employees and their organizations. Following the programme, participants will receive virtual coaching to help them successfully drive change, improve gender equality, and build resilience in their organization.
